ENORMOUS WORK BEING DONE BY PROMOTIONISTS

However, Members Believe the Public Should Know More of Committee's Activity

The members of the Hawaii Promotion Committee "talked shop" for an hour at its most recent meeting. A report and a few communications were read, but the greater part of the time was taken up with a discussion as to ways and means for letting "the man on the street" know what the committee is doing in the way of advertising the islands.

It was pointed out that during the past several months the Promotion Committee has been doing an enormous amount of work in the way of sending island literature to the mainland, and this fact also was evidenced in a report by Sidney R. Jordan, assistant director, which showed that during the past 30 days 106,750 pieces of literature have been dispensed.

Then the question came up as to just what extent the public, including those who are subscribers to the committee's fund, is kept in touch with the actual work which the organization is accomplishing, and this led to a statement to the effect that many persons have the idea that the committee is sitting still doing nothing while, in reality, at the present time it is conducting the most extensive advertising campaign it has ever undertaken.

Financial Situation Discussed. Regarding finances it was the consensus of opinion of the committee that the incoming board of supervisors will continue the \$250-a-month appropriation to the work of the committee. There was some talk as to the actual need of funds and, in some cases, the difficulty in getting money to carry on the work.

"I will be glad when we can go into the community and get money freely," said one of the members. "We always have been burdened with this financial situation, which has handicapped us in carrying out work which we have wanted to do."

Mr. Jordan's report regarding the work of the committee during the past 30 days is as follows:

"I beg to report that the office force has been exceedingly busy for the past 30 days, handling an immense amount of mail matter during that time. The following list will give you an idea of the number of pieces of literature mailed from this office:

"Isles of Peace" primers to the number of 25,000, and carnival postal cards, making a total of 75,000 pieces, were forwarded to 25,000 live addresses throughout the United States.

"Newspaper Day issues to the number of 2000 were forwarded to bank presidents and cashiers throughout the United States.

"Special letters, primers and general folders, making 2250 pieces, were forwarded to a selected list of presidents and agents of insurance companies throughout the United States.

"Isles of Peace" and special letters numbering 6000 were sent to live Y. M. C. A. secretaries throughout the United States and Canada.

"Isles of Peace" and special letters numbering 4000 pieces were also sent out.

"Individual letters to the number of 1000 were received during this time for information in regard to various subjects and data. These were individually answered, also under separate cover a supply of our literature was sent to each person.

"General folders, climatic leaflets, maps and guides of Honolulu to the number of 3000 were sent out.

"Folders to the number of 3000 were sent to different tourist and steamship agencies throughout the world.

"Folders to the number of 10,000 were sent out in bulk.

"Newspapers to the number of 500 were sent out by the Wells-Fargo Express Company, making a total of 10,500 pieces sent out in bulk."

Aids Outdoor Committee. A vote of thanks was accorded the local Wells-Fargo agency for the fact that in each of the several thousand pineapple shipments which it has forwarded to the Coast during the past month and a half, it has included Hawaiian literature.

Zeno K. Myers reported that he is receiving the cooperation of both local and mainland agencies in the committee's movement to bring insurance men to Hawaii after the exposition and in 1916. The committee appropriated \$100 a month for the use of the outdoor committee in the employment of a secretary and stenographer, and also a boy to assist in its work.

LABOR FORCE ON THE CANAL IS DECREASING

[Associated Press] PANAMA, Canal Zone.—The labor force on the canal is steadily decreasing as the work nears completion. The discharges are now mainly among the West Indian negro workers. Provision is made by the canal authorities for the return of these discharged laborers to their former homes, but many of the negroes prefer remaining in Panama to returning to their native islands where labor conditions are reported to be even worse than in Panama.

Quite a few of the laborers are going into the interior and taking up small plots of government land and engaging in agriculture.

Inter-island steamers from the Garden Island are reported by officers to have met with strong southwesterly winds and rough seas in returning to Honolulu.

OUTDOOR BODY WILL GET DOWN TO REAL WORK

With Promotion Committee Fund Office Will Be Opened Monday Morning

Immediately after the meeting of the Promotion Committee Friday afternoon appropriating \$100 a month to start the work of the Outdoor committee, a meeting of the Outdoor committee was held and it was decided to assist the Trail and Mountain Club in the arrangements for its excursion to the island of Maui and through the crater of Haleakala.

At the advice of L. A. Thurston, it was decided to notify all of those who intend making the walk through the crater, that if they will send at once two light blankets, (or one heavy blanket and a piece of oil cloth for laying on the ground), to the Promotion Committee rooms in the Alexander Young building, they will be sent on the Claudine leaving Honolulu, Dec. 24, to Kahului and thence by pack horses through the crater. A nominal charge of twenty-five cents a piece will be made, so that the trampers will not have to carry packs, although each one must carry his own tin cup. The foodstuff will be packed by mule from the Kaupo side of the crater.

Beginning today, representatives of the tourist bureau and the club affiliated with it, will be in attendance at the Promotion Committee rooms, where those going on the trip through the crater may at once get their tickets. Those who are not good, strong trampers are warmly advised to take the trip by way of Kahului and Pala by railway, automobile and horse, which will cost them fifteen dollars extra.

Miss Kathleen Rand has been secured as an outdoor assistant, and as she has had much experience as assistant secretary of the Mountaineers Club of Seattle in conducting their mountain trips, as well as in leading many of the recent trips of the Trail and Mountain Club, her services will be appreciated. "She has already laid down the law that no woman going through the crater will be allowed to wear long skirts, as should these become wet, further progress in this rough country would be all but impossible, and she advises only the strong women trampers to attempt this trip."

With this appropriation of \$100 it is expected the Trail and Mountain Club, the Hands-Around-the-Pacific, the Outrigger Club and the Ad Club may collectively contribute an equal monthly subscription. The new tourist bureau has opened its offices in the Promotion Committee rooms in the Alexander Young building.

PANAMA PASSES ANTI-ALIEN LAW

PANAMA.—The National Assembly Tuesday passed a law which virtually places in the hands of the president power to expel all foreigners from Panama. The law declares that the president may expel within 24 hours any foreigner who has become obnoxious, without giving him a trial. It also prohibits foreigners taking part in politics and from writing articles against the political party in power.

Ralph Jones of New York, a private detective, was arrested and fined ten dollars, charged with attempting to kidnap Rita Murphy, aged ten. The board walk at Rochester, N. Y., was wrecked by the highest tide in years.

The will of the late Gen. Daniel E. Sickles, filed for probate, cuts off his wife and son from whom he was separated for many years.

Winston Churchill, first lord of the British admiralty, was elected lord director of Aberdeen University to succeed Andrew Carnegie.

The Progressive club of Utica, N. Y., has disbanded as the members were of the opinion that the Bull Moose party has run its course.
